**Reporting Entity**

Please submit to fasab@fasab.gov

**Name of Respondent:**  Sherry A. Laws

**Organization:**  Commodity Credit Corporation

All responses are requested by July 3, 2013.

Q1. The Board is proposing three inclusion principles for an organization to be included in the government-wide GPFFR:

- An organization with an account or accounts listed in the *Budget of the United States Government: Analytical Perspectives—Supplemental Materials* schedule entitled “Federal Programs by Agency and Account” unless the organization is a non-federal organization receiving federal financial assistance

- An organization in which the federal government holds a majority ownership interest

- An organization that is controlled by the federal government with risk of loss or expectation of benefit

In addition, the Board is proposing that an organization be included in the government-wide GPFFR if it would be misleading to exclude it even though it does not meet one of the three inclusion principles.

Refer to paragraphs 20-36 of the proposed standards and paragraphs A12- A29 in Appendix A - Basis for Conclusions for a discussion and related explanation.

a. Do you agree or disagree with each of the inclusion principles? Please provide the rationale for your answer.  
   Agree with the inclusion principles outlined in the exposure draft.  All of the principles follow GAAP.

b. Do you believe the inclusion principles, and the related definitions and indicators, are helpful and clear? Please provide the rationale for your answer.  
   The inclusion principles are stated in a clear manner which allows the determining official to make determination and document the reasoning.

c. Do you agree or disagree that an organization should be included in the GPFFR if it would be misleading to exclude it even though it does not meet one of the three inclusion principles? Please provide the rationale for your answer.  
   Yes the definition provided in the misleading to exclude does not provide enough determining factors to allow decision makers to clearly make the decision to include or exclude.  The lack of criteria would leave this open for audit disagreements.  Paragraph 63 provides further criteria of the misleading to exclude—this would appear to be similar to the Parent/Child reporting outlined in the OMB Circular A-136.

d. Do you agree the inclusion principles can be applied to all organizations, such as the Federal Reserve System, Federally Funded Research and Development Centers, Government Sponsored Enterprises, museums, and others, to
determine whether such organizations should be included in the government-wide GPFFR? Please provide the rationale for your answer. Yes the inclusion principles should be applied across the Government. Exclusions for the “other” Federal entities could lead to misstatements. It is possible that some Government entities may qualify for the disclosure reporting rather than full inclusion for consolidated statements.

Q2. The Board proposes distinguishing between two types of organizations in GPFFRs and this distinction will ultimately determine how they are reported: consolidation entities and disclosure organizations. Consolidation entities generally are (1) financed by taxes or other non-exchange revenue as evidenced by their inclusion in the budget, (2) governed by the Congress and/or the President, (3) imposing or may impose risks and rewards on the federal government, and/or (4) providing goods and services on a non-market basis. In contrast, disclosure organizations are those that (1) receive limited or no funding from general tax revenues, (2) have less direct involvement, and influence, by the Congress and/or the President, (3) impose limited risks and rewards on the federal government, and/or (4) are more likely to provide goods and services on a market basis.

The Board proposes consolidation entities be consolidated in the government-wide financial statements and the information about disclosure organizations be disclosed in notes. The Board also proposes that certain factors and objectives be considered in determining the information about disclosure organizations to be disclosed in notes. The Statement allows flexibility in the information presented as long as the disclosure objectives are met. The Statement also provides examples of information that may meet objectives.

Refer to paragraphs 37-53 and 64-77 of the proposed standards and paragraphs A30-A54, A62-A63 and A71-A81 in Appendix A - Basis for Conclusions for a discussion and related explanation.

1. Do you agree or disagree with the concept of distinguishing between consolidation entities and disclosure organizations? Please provide the rationale for your answer. Yes agree with the concept of reporting some entities as disclosure organizations rather than as consolidating entities. The types of organizations which should be disclosed rather than consolidated might skew the reporting of a consolidated entity.

2. Do you agree or disagree with the attributes used to make the distinction between consolidation entities and disclosure organizations? Please provide the rationale for your answer and identify additional attributes, if any, that you believe should be considered. Agree. The Document provides clear decision making criteria.

1. c. Do you agree or disagree that, assuming the organizations are determined to be organizations included in the GPFFRs, the attributes are adequate to make a determination of whether organizations such as the Federal Reserve System, Federally Funded Research and Development Centers, museums, and others are consolidation entities or disclosure organizations? Please provide the rationale for your answer and identify any organizations you believe the attributes could not be adequately applied to, and additional attributes, if any, you believe are needed to address these organizations. Agree. The attributes are clear and
provide adequate criteria to allow for determination of consolidation vs. disclosure.

d. Do you agree or disagree with:

   i. the factors to be considered in making judgments about the extent of appropriate disclosures (see par. 69), **Agree.**

   ii. the objectives for disclosures (see par. 72), and **Agree,** however 72(c) can be open for interpretation within the audit community and reporting projected future exposure financially may be difficult.

   iii. the examples provided (see par. 73)? **Agree.** Examples help provide clarity to the disclosure objectives.

Please provide the rationale for your answers.

Q3. The Board proposes each component reporting entity report in its GPFFR organizations for which it is accountable; that includes consolidation entities and disclosure organizations administratively assigned to it. Administrative assignments can be identified by evaluating:

   - the scope of the budget process,
   - whether accountability is established within a component reporting entity, or
   - rare instances of other significant relationships such that it may be misleading to exclude an organization not administratively assigned based on the previous two principles.

The Board recognizes that in rare instances it also may be misleading to include an organization that is administratively assigned to a reporting entity based on the above principles. In such cases, the organization may be excluded.

Refer to paragraphs 54-63 of the proposed standards and paragraphs A55-A61 in Appendix A - Basis for Conclusions for a discussion and related explanation.

   a. Do you agree or disagree that each component reporting entity should report in its GPFFR organizations for which it is accountable, which includes consolidation entities and disclosure organizations administratively assigned to it? Please provide the rationale for your answers. **Agree.** The reporting of all organizations which a reporting entity is responsible for fully discloses the breadth and scope of a Federal reporting entity. All organizations within the control should be reported.

   b. Do you agree or disagree that administrative assignments can be identified as provided in paragraphs 54-63? Please provide the rationale for your answers. **Agree.** The evaluation items listed in Para 56 provide very clear criteria, especially items a) and b).

Q4. The Statement provides for each reporting entity (the government-wide and component reporting entities) to consolidate financial information for all consolidation entities for which it is accountable without regard to funding source (for example, appropriations or donations). For certain organizations, such as museums and performing arts organizations, this may lead to
consolidating funds from sources such as donations that are presently not consolidated in the government-wide GPFFR.

Refer to paragraphs 54-64 of the proposed standards and paragraph A19 in Appendix A - Basis for Conclusions for a discussion and related explanation.

Do you agree or disagree that each component reporting entity (for example, museums) and the government-wide reporting entity should consolidate in their entirety organizations for which it is accountable without regard to funding source, including those receiving appropriations and donations? Please provide the rationale for your answers. Agree with the inclusion of the entire organization for which a Government reporting entity is responsible. The reporting of only sub-components could lead to misinterpretations of financial data. Sources of funding should be part of the disclosure to allow a reader of the report to more fully understand relationship and sources of funds allowing for operations.

Q5. For consolidation entities, the Statement proposes that FASAB and Financial Accounting Standards Board (FASB) based information should be consolidated without conversion of FASB-based information to a FASAB basis.

Refer to paragraphs 65- 66 of the proposed standards and paragraphs A66-A70 in Appendix A - Basis for Conclusions for a discussion and related explanation.

Do you agree or disagree that consolidation of FASAB and FASB based information without conversion for consolidation entities is appropriate? Please provide the rationale for your answers. Disagree. Federal Financial Reporting should consistently follow FASAB guidance. The mixing of reporting standards could mislead a reader and provide confusion for the report users.

Q6. Central banking (through the Federal Reserve System) is a unique federal responsibility with distinctive characteristics. The proposed standards do not specify that the central banking system be included in GPFFRs or whether, if included, it would be classified as a consolidation entity or a disclosure organization. Because of the unique nature and magnitude of central banking transactions, and the fact there is only one organization of this type, the Board proposes certain minimum disclosures regarding the central banking system. These disclosures would be required in addition to any other reporting requirements regarding the central banking system. The information should be disclosed in the government-wide GPFFR and the GPFFR of any reporting entity to which it may be primarily associated with or administratively assigned. Depending on the circumstances, some of the minimum disclosures may have been addressed in other requirements. The resultant disclosures should be integrated so that concise, meaningful, and transparent information is provided and information is not repetitive.

Refer to paragraph 77 of the proposed standards and paragraphs A30-A37 in Appendix A - Basis for Conclusions for a discussion and related explanation.

a. Do you agree or disagree with the minimum disclosures for the central banking system or believe there are additional disclosures that should be considered? Please provide the rationale for your answer. Agree. The emphasis of the disclosure however should be from the Reporting Entities viewpoint and outline its business relationship and interactions with the Central Banking System.
b. Do you believe there are other significant organizations for which minimum disclosures should be made? Please specify which entities, if any, and the nature of disclosures and provide the rationale for your answer. None to add.

Q7. The Board proposes a definition of related parties and disclosures for related parties where the relationship is of such significance that it would be misleading to exclude disclosures about the relationship. The proposal also provides a list of the types of organizations that generally would or would not be considered related parties.

Refer to paragraphs 78 -87 of the proposed standards and paragraphs A82-A84 in Appendix A – Basis for Conclusions for a discussion and related explanation.

a. Do you agree or disagree with the related parties definition and requirements? Please provide the rationale for your answer. Agree. Definition provided in para 78-83 are clear and concise.

b. Do you agree or disagree with the list of the types of organizations that generally would be considered related parties? Please provide the rationale for your answer. Para 83 is not clear “use of the term generally” allows for substantive judgment by the reporting entity.

c. Are there additional organizations that generally should be considered related parties? Please provide the rationale for your answer. None at this time.

d. Do you agree or disagree with the list of exclusions? Please provide the rationale for your answer. Agree. Definitions in Para 84 are clear.

e. Are there additional exclusions that should be considered? Please provide the rationale for your answer. None at this time.

Q8. The Board proposes conforming changes to Statement of Federal Financial Accounting Concepts (SFFAC) 2, *Entity and Display*, to rescind or amend language to remove criteria for determining what organizations are required to be included in a federal reporting entity’s GPFFR from the concepts statement because criteria will be in a statement of federal financial accounting standards. Refer to paragraphs 88-101 of the proposed standards and paragraphs A85-A88 in Appendix A - Basis for Conclusions for a discussion and related explanation.

Do you agree or disagree with the conforming changes to SFFAC 2? Please provide the rationale for your answer. Agree. The SFFAC 2 should reflect the same reporting decision criteria outline in the standard.

Q9. The Board proposes the Statement and Amendments to SFFAC 2, *Entity and Display*, be effective for periods beginning after September 30, 2016. Refer to paragraph 102 of the proposed standards.

Do you agree or disagree with this effective date? Please provide the rationale for your answer. Disagree. The change should be further out into the future to allow agencies to complete the necessary analytics and incorporate reporting changes. We would suggest agencies complete the information for FY17, with comparative presentation in FY18 financial statements.
Q10. The Statement provides two non-authoritative appendices to assist users in the application of the proposed standards. The Flowchart at Appendix B is a tool that can be used in applying the principles established. The Illustrations at Appendix C offer hypothetical examples that may be useful in understanding the application of the standards.

Refer to Appendix B-Flowchart and Appendix C-Illustration.

   a. Do you agree the appendices are helpful in the application of the proposed standards? Agree—all of the appendices provide clarifying guidance. The decision flowchart will clearly aid reporting entities in the determination of inclusion and presentation.

   b. Do you believe the appendices should remain after the Statement is issued? Yes.

   c. Do you believe there should be any changes or additional examples regarding the illustrations that would be useful in understanding the application of the standards? Please provide rationale to support your answer. None at this time.

Q11. Are there other unique situations that should be addressed within this Statement? Please explain fully and also how the situation is not addressed by this Statement when considered in its entirety. Not aware of any at this time.

Q12. One member has an alternative view regarding receiverships, conservatorships, and interventions. The Board member does not believe receiverships, conservatorships, and intervention organizations should be equated with other disclosure organizations. He believes guidance in the proposed standards gives the impression that these organizations are part of the federal government. Further, he believes all types of interventions should be addressed in the Board’s project on risk assumed.

The other members believe the proposed standards appropriately distinguish between consolidation entities and disclosure organizations including receiverships, conservatorships, and interventions resulting in ownership or control. The Board deliberated alternatives regarding such organizations, including creating an “exception” similar to the approach taken in SFFAC 2, but determined an exception would be rules-based rather than principles-based. Such an exception would require more detailed guidance, or “rules,” to aid in determining whether ownership or control of such organizations is expected or intended to be permanent.

Instead, the proposed standards establish principles for when relationships with organizations create a need for accountability, and how information should be included in GPFFRs. The Board believes it is important to address these relationship matters in a single Statement of Federal Financial Accounting Standards and has not proposed exceptions. The Board also addresses in this proposed Statement whether organizations are required to apply the GAAP hierarchy for federal reporting entities. Disclosure organizations are not required to apply the GAAP hierarchy for federal reporting entities and this should avoid giving the impression that all disclosure organizations included in GPFFRs are federal reporting entities or “part of the federal government.” To further avoid giving this impression, the Board clarified that it is not the purpose of this Statement of Federal Financial Accounting Standards to assist in determining what entities are “part of the federal government” for legal or political purposes.

a. Do you agree or disagree with the alternative view that the proposed standards should not equate receiverships, conservatorships, and interventions with other disclosure organizations to avoid an inference that they are part of the Federal government? Please provide the rationale for your answer. Disagree. While the inclusion of these organizations greatly broadens the scope—the disclosure of Government involvement in the organization management and financial actions provides the user of the statements significant information. The disclosure needs to be concise and not duplicate information reported.

b. Do you agree or disagree with the alternative view that the guidance for all interventions, regardless of type, should be presented in a single Statement of Federal Financial Accounting Standard? Please provide the rationale for your answer. Disagree. The current statement is focused on the reporting entity—it should ensure that it is not in conflict with other statements or concept papers.
